## Professional Summary

Full Stack Developer with 4+ years of experience building scalable web and mobile applications. Proficient in React.js, Next.js, React Native, Node.js, and REST API design. Hands-on with PostgreSQL, MongoDB, AWS, Docker, and CI/CD pipelines. Proven track record optimizing Core Web Vitals, improving SEO, and integrating payment systems (Juspay) in production environments serving millions of users.

## Technical Skills

|                            |                                                                                  |
|----------------------------|----------------------------------------------------------------------------------|
| <b>Languages:</b>          | JavaScript (ES6+), TypeScript, SQL, Python, Java, C                              |
| <b>Frontend:</b>           | React.js, Next.js, React Native, Redux, React Query, HTML5, CSS3                 |
| <b>Backend:</b>            | Node.js, Express.js, Fastify, REST API Design, Authentication, Microservices     |
| <b>Databases:</b>          | PostgreSQL, MongoDB, MySQL — schema design, query optimization, indexing         |
| <b>Cloud &amp; DevOps:</b> | AWS (Secrets Manager, EC2, S3), Docker, Jenkins, CI/CD Pipelines                 |
| <b>Tools:</b>              | Git, Agile/Scrum, Core Web Vitals, SSR/SSG, Unit Testing, Performance Monitoring |

## Work Experience

### Aditya Birla Fashion and Retail Limited

Software Developer

Bangalore, India

Jun 2024 – Present

- Drive end-to-end development of Pantaloons eCommerce platform serving millions of users across frontend, backend, and infrastructure layers.
- Reduced manual operational effort by **40%** by building internal tooling and admin configuration systems.
- Improved page load performance and search rankings by optimizing Core Web Vitals (LCP, FID, CLS) and implementing on-page SEO best practices.
- Managed secure credentials across environments using AWS Secrets Manager; ensured reliability via structured error handling and automated testing.

### Codingmart Technologies

Full Stack Developer

Coimbatore, India

Jul 2022 – Jun 2024

- Built end-to-end web and mobile applications using React.js, Next.js, Node.js, and Express.js for diverse client projects.
- Designed and optimized RESTful APIs, reducing average response times and improving overall application throughput.
- Developed cross-platform mobile apps with React Native, delivering consistent UI/UX across iOS and Android.
- Containerized services with Docker and implemented CI/CD pipelines via Jenkins, streamlining deployments and reducing release cycles.

## Key Projects

### Pantaloons eCommerce Platform

React.js, Next.js, Node.js, AWS, Juspay, REST APIs

- Architected scalable frontend using React.js and Next.js (SSR/SSG) integrated with microservice backends, handling high-traffic retail workloads for millions of users.
- Designed RESTful APIs for product listing, cart, checkout, and order lifecycle with pagination, filtering, and response caching for peak traffic.
- Integrated Juspay payment gateway end-to-end: modeled transaction state machines, built retry/idempotency logic, and handled edge cases for failed/partial payments.

### Dorak – B2B Travel Admin Platform

React, Redux, React Query, REST APIs

- Built a scalable admin dashboard enabling real-time data management across thousands of records with lazy loading, caching, and code splitting.
- Developed a reusable component library integrated with REST APIs to support dynamic, data-driven UI workflows.

### 2Hub – Hotel Booking Mobile App

React Native, Node.js, PostgreSQL, REST APIs

- Delivered full stack hotel booking app with React Native frontend and Node.js/Express backend supporting end-to-end booking flows.
- Engineered backend logic for concurrent booking scenarios, edge case handling, and transactional data integrity; optimized mobile performance via Redux state management.

## Education

### Kongu Engineering College

Bachelor of Engineering in Computer Science

CGPA: 9.49 / 10.0

Erode, Tamil Nadu, India

Graduated: 2023
